EDUCATION

Bucknell University

B.S., Computer Science & Engineering
Dean's List (Spring 2024, Spring 2025, Fall 2025)

Lewisburg, PA
PA (Expected May 2026)

Columbia University

M.S.C.E., Computer Engineering

Programs Admitted (2026-2028)

EXPERIENCE

Teaching Assistant

Operating Systems Design — Bucknell University

(Sep 2025 – Present)

- Support labs and assignments on OS design concepts and system programming.

Research Fellow

Bucknell University

(Jun – Dec 2024)

- Developed ASL↔CSL sign language translator using MediaPipe and PyTorch.
- Optimized CNN training, achieving 96% (ASL) and 91% (CSL) accuracy.

PROJECTS

Sign Language Translator

(Jun – Dec 2024)

- Presented at SVR 2024, winning the 2nd Best Paper Award.
- Interactive Graphics & Virtual Environments Projects (Spring 2025 – Present)

WebGPU rendering demos and online virtual art gallery

(Jan 2025 – Present)

- Developed WebGPU rendering demos using JavaScript and WGSL, implementing custom shaders and scene management.
- Built and hosted an online virtual art gallery using Unity and C#, deployed via Firebase for web-based access.

Robot Cart Project

(Sep – Dec 2024)

- Collaborated to implement and program a line-following robot to compete in six events

SKILLS

Programming: Python, C, C++, Java, JavaScript, HTML, RISC-V Assembly, Go

Tools: Git, Linux systems, VSCode, IntelliJ IDEA, Jupyter Notebooks, Conda, Emacs, Arduino, PC hardware assembly & diagnostics, AWS Cloud, and Firebase web hosting

Languages: English (Fluent), Mandarin (Native)
